're still tr

across the metropolitan area. The official death count from Hurricane Katrina in Louisiana was 71 as of Monday evening, but that included only those bodies that had been brought to a make-shift morgue in St. Gabriel.

Nearly a full week after Hurricane Katrina, a rescue force the size of an invading army had not yet begun the task of retrieving the bodies Sunday. What's more, officials appeared to have no plan.

Daniel Martinez, a spokesman for FEMA working on Interstate 10 in eastern New Orleans, said plans for body recovery "are not being released yet."

Dozens of rescue workers questioned Monday said they knew of no protocol or collection points for bodies; none said they had retrieved

But as rescue teams across the city said they had checked nearly every house for survivors, the enormity of the death that lay in Hurricane Katrina's wake came into sharp focus even as the plans for taking care of the dead remained murky.

Mayor Ray Nagin, addressing the potential body count for the storm for the first time, said the storm may have claimed more than 10,000 lives.

In a news conference Monday morning, Deputy Chief Warren Riley said his department was "not responsible for recovery."

"We don't have a body count, but I can tell you it's growing. It's growing," he said.

As the rescue missions covered more and more ground but yielded

casualties from Hurricane Katrina likely will come in the Lower 9th Ward, St. Bernard Parish, areas first inundated on Aug. 29 with floodwaters that engulfed second story homes in minutes. New Orleans also will likely see mass casualties, New Orleans Police Capt. Timothy Bayard said.

"We're going see a lot more bodies out of New Orleans East than we anticipated," he said.

In just one subdivision, Sherwood Forest, survivors who showed up to the Convention Center on Monday said police told them roughly 90 people in the subdivision had died.

In St. Bernard, 22 bodies were found lashed together. Officials surmised the drowning victims had tried to stay together to keep themselves from being washed away in

Even Uptown near the river, one of the few spots of dry land, a body lay in front of a white wooden shotgun double at 4732 Laurel St. The body of an older woman lay under a gray blanket, pinned down at the corners by brick and slate, adorned with a plastic-wrapped flower bouquet. Above her, a yellow cardboard sign quoting John 3:16 had been taped to the window.

In the loving arms of Jesus

Given the length of time many had been dead, and in the water, some of the bodies already might be unrecognizable, and some may never be recovered.

Many trapped by flood waters in shelters found their own ways of dealing with those who died in their

the Convention Center,
in the wheelchair rattled B
most. When he found her two
before among the sea of suffering
front of the Convention Center
where one of the last refugee camps
evacuated, her husband sat next to
her. He had only one concern when
Brooks and some of his comrades
carted her away.

"Bring me back my wheelchair,"
he recalled the man telling him.

One of the bodies, they said, was
a girl they estimated to be 5 years
old. Though they could not confirm
it, they had heard she was gang-

even after what I saw in Iraq,"
said Brooks, referring to the
freezer where the bulk of the bodies sat decomposing. "In Iraq, it's one-on-one. It's war. It's fair. Here, it's just crazy. It's anarchy. When you get down to killing and raping people in the streets for food and water □ And this is America. This is just 300 miles south of where I live."

Media Literacy in our schools

- Perins School
  - *fortnightly lesson for all Year 8 pupils*
  - *activities also used in lessons for Years 9-11*

Term	Lesson Foci
Autumn	• What is news? • Truth & reliability • Verification & bias
Spring	• Tabloids and broadsheets • Role of newspapers • Protest songs
Summer	• Echo chambers & algorithms • Misuse of photos • Impact of social media

Media Literacy in our schools
